Hybrid Architectures for Intelligent Systems Abraham Kandel, Gideon Langholz
Hybrid architecture for intelligent systems is a new field of artificial intelligence concerned with the development of the next generation of intelligent systems. This volume is the first book to delineate current research interests in hybrid architectures for intelligent systems.
The book is divided into two parts. The first part is devoted to the theory, methodologies, and algorithms of intelligent hybrid systems. The second part examines current applications of intelligent hybrid systems in areas such as data analysis, pattern classification and recognition, intelligent robot control, medical diagnosis, architecture, wastewater treatment, and flexible manufacturing systems.
Hybrid Architectures for Intelligent Systems is an important reference for computer scientists and electrical engineers involved with artificial intelligence, neural networks, parallel processing, robotics, and systems architecture.

From reader reviews:

Ruth McGrath:

Book is to be different for every grade. Book for children until adult are different content. As we know that book is very important usually. The book Hybrid Architectures for Intelligent Systems was making you to know about other understanding and of course you can take more information. It is very advantages for you. The publication Hybrid Architectures for Intelligent Systems is not only giving you a lot more new information but also to be your friend when you really feel bored. You can spend your personal spend time to read your guide. Try to make relationship using the book Hybrid Architectures for Intelligent Systems. You never really feel lose out for everything should you read some books.

Janet Smith:

Playing with family in a park, coming to see the sea world or hanging out with close friends is thing that usually you could have done when you have spare time, after that why you don't try thing that really opposite from that. Just one activity that make you not sensation tired but still relaxing, trilling like on roller coaster you have been ride on and with addition details. Even you love Hybrid Architectures for Intelligent Systems, you may enjoy both. It is great combination right, you still want to miss it? What kind of hangout type is it? Oh come on its mind hangout fellas. What? Still don't obtain it, oh come on its known as reading friends.

Cherly Plaster:

On this era which is the greater man or who has ability in doing something more are more valuable than other. Do you want to become among it? It is just simple approach to have that. What you have to do is just spending your time very little but quite enough to experience a look at some books. Among the books in the top list in your reading list will be Hybrid Architectures for Intelligent Systems. This book which is qualified as The Hungry Inclines can get you closer in becoming precious person. By looking upward and review this publication you can get many advantages.

Steven Delorme:

Book is one of source of information. We can add our information from it. Not only for students but additionally native or citizen need book to know the change information of year for you to year. As we know those publications have many advantages. Beside all of us add our knowledge, can also bring us to around the world. By the book Hybrid Architectures for Intelligent Systems we can consider more advantage. Don't someone to be creative people? To become creative person must love to read a book. Only choose the best book that ideal with your aim. Don't possibly be doubt to change your life by this book Hybrid Architectures for Intelligent Systems. You can more inviting than now.
