Annie Clarkson is a fifteen year old girl who's writing a novel. Her friends Petra, Auburn, and Jayna have been at her side throughout the process. Andy Clarkson is a fifteen year old boy who's just about to send his novel in for publication. His friends Peter, Austin, and Jason are the ones whom he has been depending on to keep on pushing through. There's one thing that none of them know, however; Annie and Andy - along with their friends - are the genderbent versions of themselves. Now, they all finally meet and the worlds are about to collapse. Can they be the antagonists in their book who somehow come to life, along with the Master, who is someone who seems to be from their past? And what's the truth behind Annie and Andy Clarkson? Is there a chance that they aren't the genderbent versions of each other after all?
