Military History: Collected Works: Volume 5 (Desk General) Veronica Clark

This book, the fifth in a set of six, is part of my “Desk General Series”. Here readers will encounter a variety of discussion posts, essays and theses on a range of topics in military history. It is my hope that readers will be able to experience some of the Norwich University program as I did. Essays on strategy, tactics, philosophy, battle, injuries, conscription, espionage, nuclear warfare, Western and non-Western warfare, asymmetrical warfare, 4GW, weapons, gunpowder, revolution, Jomini, George Washington, Adolf Hitler, Grant and Lee, Sun-tzu, and much more is found in this content rich series. Readers will come away from my series with a well-rounded knowledge of military history, philosophy and theory. They will also gain a better understanding of warfare: its evolution, its persistence in human history and its future.
