The One Day Barter Miracle: How To Barter For Fun And Profit Michael Senoff

If you are one of the many people that come to my web site, www.hardtfindseminars.com, and are curious about the Barter, then this audio may help you to make the decision to obtain the Barter Secrets course that I offer.

Dennis Klase was a person who was very interested in Barter. He is a Native American living on a reservation in northern New York. He had been working as an iron worker in New York City but left the job because it didn't pay well. Dennis just knew that there had to be a better way to make more money!

He moved back to his reservation and began working for a friend of the family whose business was in web sites. Dennis learned so much from this man about how he was able to use Barter in his business to make huge profits.

Dennis explained to me that the concepts of trade and barter are not new to the Native American community. It is a common way of life for Indians that goes back hundreds, if not thousands of years.

When Dennis came across my Barter Secrets course, he knew that he had to have it. He hadn't been making much money at the time and actually saved his salary for several weeks in order to buy the course.

I must tell you that Dennis absolutely loves the course. He contacted me to bounce some new ways to use Barter. I don't know who learned more in this consultation – Dennis or me!

Listen as Dennis explains how selling items from the reservation saves buyers from having to pay state sales taxes. Additionally, in most cases Native Americans living on a reservation can purchase items off the reservation without having to pay state sales taxes. You will also learn very interesting things about the Native American way of life on the reservation and how, when things are taken away by the United States government, Indians have the ingenuity to work around these problems by finding better solutions.

We discussed a possible barter-based business in advertising for the multitude of Indian casinos across the country. The objective would be for Dennis to buy advertising trade dollars at 20 cents or less on the dollar then sell advertising to the casinos at a profit – and the casino would still realize a huge savings in advertising.

What Dennis needs to do is to research where Indian casinos are buying their advertising from and how much they are paying for it. Once he has obtained that information, he can contact some of the many nationwide barter organizations to determine if advertising trade dollars are available for purchase. In this audio, I give Dennis just a few of the barter organization names and web links to use in his research.
