**Women's Employment in Europe: Trends and Prospects** Colette Fagan, Jill Rubery, Mark Smith

Based on extensive original research, this volume examines contemporary patterns of women's employment in Europe in the context of the profound economic, social and cultural changes that have taken place in recent years. It considers the progress made towards equal treatment in the labour market in the light of European Union action programmes, and examines the prospects for women's employment under the fourth action programme. The authors conclude that progress towards equal treatment will only occur when gender issues are fully integrated into the European Commission's employment and labour market policies.
