Rich's Vascular Trauma, 3e Todd E Rasmussen MD FACS, Nigel R M Tai QHS MS FRCS(Gen)

Published in association with the **Society for Vascular Surgery (SVS)**, the newly updated edition of *Rich's Vascular Trauma* draws on civilian and military authorities from around the world to offer comprehensive and up-to-date coverage of the management of vascular injury. Anatomic patterns of vascular trauma including extremity, torso and cervical injury are reviewed in detail, including the latest techniques to manage non-compressible torso hemorrhage. You'll have access to all of the current innovations across the broad spectrum of vascular trauma, presented in a well-organized fashion that allows you to quickly hone-in on the most important issues in patient care and management.

"...This new *International Perspectives* section provides a mix of personal and regional experiences from surgeons whose partnership in the management of vascular trauma was and will continue to be highly valued..." **Foreword by:** Norman M. Rich, June 2015

- **Emphasizes the current management of civilian vascular injuries** with an historical reflection of pioneering contributions from the battlefield.
- **Combines the largest existing database** of military vascular trauma with the experience of one of the nation's premier civilian trauma centers.
- **Examines operative techniques** and "damage control" for vascular traumas.
- **For the first time, includes a novel *International Perspectives* section** featuring fascinating accounts of vascular trauma from nine leading surgeons from five continents. This section focuses on **innovative surgical treatments** tailored to locally developed pathways of care, training solutions, and regional injury patterns.
- **End-to-end coverage of all phases of acute vascular injury care**, including a new assessment of the implications of vascular trauma in the pre-hospital setting (i.e. point of injury and en-route care).
- **Covers the emerging hot topics**, including endovascular procedures to manage trauma, contemporary use of vascular shunts, and a modern reappraisal of resuscitative endovascular balloon occlusion of the aorta for shock.
- **An innovative chapter on the systems approach** and quality improvement in vascular trauma, offering information and tactics for all providers wishing to understand how clinical systems underpin patient outcome and recovery from this challenging injury pattern.
- **A combined civilian and military authorship from internationally recognized authorities** draws on the best available evidence, experience, and lessons-learned from Afghanistan, Iraq, and the "urban battlefield."
- **Expert Consult eBook version included with purchase.** This **enhanced eBook experience** allows you to search all of the text, figures, references, and videos from the book on a variety of devices.
