That's Life: A Love Affair: Jon + Merile 1973 Jean-Thomas Cullen

Here is a love story, written during the disco 1970s by a young U.S. author in his 20s, stationed in Europe. The manuscript documents a vibrant, passionate love story that weaves in and out between delicious myth and sizzling reality. The novel was all but forgotten for nearly half a century and is now resurrected in the light of day. A fresh, sincere, emotionally charged love story never really ages--so here it is, in a new century, for modern readers to enjoy and to relive a slice of long ago. The story was already then a bit of nostalgia, composed on trains, in hotels, and in military kasernes from Germany to Paris and across the rest of Europe. The author composes a mosaic of memories and imaginings, looking back to his formative years in a New England college town. It's the type of story John Updike might have written as a very young man, in a lucid mix of innocence and transgression. It's is a true story, and it isn't. It is a work of fiction, from a time (youth) when life and mythos co-exist in tentative, vernal glory. This is a love story about a man and a woman (who could be anyone but were someone). It's the story of an affair between a young man and a beautiful, lonely (too) young married woman whose husband is having his own distant affairs. Her husband is absent without emotional leave, and Merile's sorrowful heart intersects with the poetic idealism of a struggling young writer. It is a triangle in which power, love, and passion play against each other amid ivied walls, hushed libraries, and lovely tinkling carillons on long, sad, sunny afternoons. The ms was originally simply titled Jon + Merile. It is a love story in (and about) the New England college town in which these two found each other, lost each other, and ultimately maybe found themselves--we'll never know for sure. As people say in Paris, where some story elements were remembered: c'est la vie and je ne regrette rien.
