Wolf Pack: The American Submarine Strategy That Helped Defeat Japan Steven Trent Smith

An enthralling story of courage and adventure under the high seas *Wolf Pack* traces the development of one of the most effective naval strategies employed by the American fleet in World War II. Steven Trent Smith recounts the behind-the-scenes struggles of the visionary U.S. naval commanders who sought to adapt the highly effective strategy of using coordinated submarine attack groups, or "wolf-packs," first pioneered by the German Navy to devastating effect. Smith provides vivid profiles of the major players involved and clearly explains the important technology involved. Working from survivor accounts and government documents, he recounts, in scenes packed with nail-biting undersea action, some of the most hair-raising wolf pack operations in both the European and Asian theaters of war. The story culminates in the massive penetration of the mine-laden Sea of Japan by nine boats in June 1945 that marked the pinnacle of the U.S. pack strategy. Steven Trent Smith (Philadelphia, PA) is the author of the critically acclaimed *The Rescue: A True Story of Courage and Survival in World War II* (0-471-41291-0) and a five-time Emmy award-winning freelance TV photojournalist with a passion for history.
