Global Understanding through Anthropology

Anthropology: A Global Perspective connects readers with other cultures and helps them understand diversity in our modern, globalized world. The text explores current and classical research from all four subfields of anthropology—biological, cultural, linguistic, and archeological—to shape a comprehensive view of humanity.

The **Eighth Edition** uses a comparative approach in both its examination of facts and its tie to other fields of study. The text centers around three major themes to make material that spans across time and discipline accessible to audiences. Through critical thinking, competing hypotheses, and an in-depth examination of specific data, *Anthropology: A Global Perspective* introduces readers to the many complex facets of human nature.

Also available with MyAnthroLab

MyAnthroLab for General Anthropology courses extends learning online, engaging students and improving results. Media resources with assignments bring concepts to life, and offer students opportunities to practice applying what they've learned. And the Writing Space helps educators develop and assess concept mastery and critical thinking through writing, quickly and easily. Please note: this version of MyAnthroLab does not include an eText.

Anthropology: A Global Perspective, Eighth Edition is also available via **REVEL™**, an immersive learning experience designed for the way today's students read, think, and learn.
