**Diseases of PLANTATION CROPS** Albert L. Smith, Lester M. Blank

Diseases of plantation crops affect every crop in all parts of the world. However, tremendous progress have been made in agriculture advancement. In absence of check on population growth. The demand of growing population for food and fibre requires higher yield from presently cultivated land. Over the past four decades world wide food production has more than kept pace with the doubling of world poulation. In the year 1943 (Second World War) Bengal (India) had to face a serious famine. One of the reasons of this famine has been contributed was loss in yield of rice crop due to attack of Helminthosporium leaf spot which had been affecting the crop. Situation was similar to the Irish potato famine but not so Catastotrophic.
