## Curriculum for Three to Six Years (AEPS: Assessment, Evaluation, and Programming System)

Kristine Slentz

Convenient and reliable, AEPS is a curriculum-based assessment/evaluation system designed for use with children from birth to 6 years who have special needs or are at risk for developmental delays. Developed and refined through more than 10 years of field-testing, the two measurement volumes track six key AEPS domains -- fine motor, gross motor, adaptive, cognitive, social-communication, and social development -- and provide a framework for developing IEP/IFSP objectives. The two curriculum volumes offer linked, age-appropriate, activity-based intervention strategies that effectively facilitate children's acquisition of needed skills.
