The Golden Chain of Homer: Aurea Catena Homeri

The Aurea Catena Homeri, written in German by Dr. Anton Josef Kirchweger, was first printed in 1723, though it was distributed in a handwritten format prior to that time. It is said to be one of the most important books ever created giving insight into alchemy-the idea that all creation, no matter what its nature, is closely interconnected, that a deeply secret connection pervades all of nature, that one thing relates to the next and things depend upon each other.

In *The Golden Chain of Homer*, editors Gregory S. Hamilton and Philip N. Wheeler provide an English translation of Aurea Catena Homeri, complete with frequent, detailed footnotes and extensive commentary that offers a detailed analysis and insight into Kirchweger's work, considered a masterpiece of alchemical literature.

The Golden Chain of Homer shows Kirchweger's book in a new, enlightening way. Through this translation, it becomes easier to understand alchemical principles and unveil the mysteries that shroud the science of alchemy.
