## **LIFE ON THE BAYOU** John Lounsberry

The train trestle that crossed the bayou loomed just ahead and because of the flood height, there would be very little clearance if I went under the trestle. Thinking it better to not try it, I turned the craft around. At least I tried to make the turn. Because of the swiftness of the water, the pirogue was slammed sideways into one of the set of supporting pilings. With the water threatening to come over the low sides, the situation really looked dicey.....

Read about how this came out and maybe you can decide if it was supernatural intervention that preserved me that day. There are also a lot of “down home” happenings that are interlaced with humorous anecdotes from LIFE ON THE BAYOU.
