Pediatric Neurologic Physical Therapy, 2e (Clinics in Physical Therapy) Suzann K. Campbell PT PhD FAPTA

A comprehensive review of recent research, treatment objectives and approaches to physical therapy for children with movement dysfunction caused by neurological disorder. This new edition features the recent advances in the physical therapy and rehabilitation of infants and children with neurologic disabilities. It also now provides information on the management of children with disabilities in community settings and the physical therapy role of the family. It reviews standardised tests for assessing movement dysfunction.
