The Judas Conspiracy: and other religious fallacies Steven K Craig, Frances M Brignardello

Throughout the ages, science and religion have clashed. Each side diligently works to discredit the other which keeps them in a constant state disagreement. Both sides are stubborn and blind. However, this feud is insignificant to the real root of what has been taking place for centuries. With an open mind and eyes that are not fogged up from an instilled belief, the two can be united. Using modern technology and the information available to anyone at their fingertips, the proof is easily found that explains the mysteries of religion and science. There is a hidden truth to biblical history that is being withheld from people. The reasons are many. What the Judas Conspiracy contains is information that Bible scholars, pastors and even the Vatican are well aware of, but to speak of them would be considered an act of heresy to deliberate doctrines. Since the beginning, man has altered the ancient text, omitted vital information and distorted the word of God to suit his own needs and hidden agenda. What you are being taught from the man behind the pulpit is not the truth of God but a twisted version set forth by controlling and domineering church leaders. One in particular is mans devious act to suppress the role and importance of women. The problem with organized religion is the human designed doctrine that is a distorted variation from the original Hebrew text that has been passed down through generations; a doctrine that has been altered by man to suit the needs of that time. The Bible, although inspired by the word of God, has been tampered with too many times. There are multiple translations that have distorted the ancient text, incorrect punctuation, omitted books, and altered scripture, which has created many biblical fallacies that Sheeple believe as a truth they are willing to fight for. However, it is only a half truth, and by not giving all the truth to the people, many in turn view the Bible as a fairytale. This has created a volatile rift between believers and non-believers, and the frightening part is that only 10% of believers will actually make it into heaven because they are blind to the truth. The Judas Conspiracy will lead you in the direction to see the truth. By using the ancient Hebrew text of the Bible, we will show you that there were Dinosaurs, an Ice Age, humans before Adam & Eve, the Holy Trinity is not what you think, and Aliens. By cross linking scientific facts and ancient and modern Bible scriptures, we will show that the Noah's Ark story happened when the earth expanded, creating the Continental Shift, and that not all living was destroyed. In addition, we show you the conspiracy to keep the whereabouts of Noah's Ark hidden from the people. Then we prove the conspiracy by organized religion to falsely and intentionally make Mary Magdalene out to be a prostitute and the conspiracy to make Judas out to be evil incarnate when he was used a pawn in God's plan. We also show you that sex is not a filthy sin, in fact, God wants us to have sex and enjoy it. Then comes the hardest part of all to swallow that will keep many Christians from ever entering the Pearly Gates of Heaven. You can either open your mind to the truth or be lead to drown like rats by a Pied Piper. The choice is yours. The Judas Conspiracy will astonish you when you learn the truth to these amazing mysteries as they are unveiled before you. You may just end up with a deeper understanding that you will never get within the confined walls of a church as we unlock the secrets that God intended for you to know.

If you want to test look for book, may be the e-book untitled The Judas Conspiracy: and other religious fallacies can be great book to read. May be it might be best activity to you.

Richard Strohm:

Many people spending their time period by playing outside using friends, fun activity having family or just watching TV 24 hours a day. You can have new activity to pay your whole day by reading through a book. Ugh, do you consider reading a book can definitely hard because you have to bring the book everywhere? It fine you can have the e-book, delivering everywhere you want in your Cell phone. Like The Judas Conspiracy: and other religious fallacies which is having the e-book version. So , try out this book? Let's view.

Herbert Oakley:

As a pupil exactly feel bored to reading. If their teacher requested them to go to the library as well as to make summary for some guide, they are complained. Just very little students that has reading's spirit or real their pastime. They just do what the teacher want, like asked to the library. They go to there but nothing reading really. Any students feel that studying is not important, boring in addition to can't see colorful images on there. Yeah, it is to get complicated. Book is very important to suit your needs. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore , this The Judas Conspiracy: and other religious fallacies can make you truly feel more interested to read.
