## **Python Text Processing with NLTK 2.0 Cookbook** Jacob Perkins

Use Python's NLTK suite of libraries to maximize your Natural Language Processing capabilities. \* Quickly get to grips with Natural Language Processing ? with Text Analysis, Text Mining, and beyond \* Learn how machines and crawlers interpret and process natural languages \* Easily work with huge amounts of data and learn how to handle distributed processing \* Part of Packt's Cookbook series: Each recipe is a carefully organized sequence of instructions to complete the task as efficiently as possible In Detail Natural Language Processing is used everywhere ? in search engines, spell checkers, mobile phones, computer games ? even your washing machine. Python's Natural Language Toolkit (NLTK) suite of libraries has rapidly emerged as one of the most efficient tools for Natural Language Processing. You want to employ nothing less than the best techniques in Natural Language Processing ? and this book is your answer. Python Text Processing with NLTK 2.0 Cookbook is your handy and illustrative guide, which will walk you through all the Natural Language Processing techniques in a step-by-step manner. It will demystify the advanced features of text analysis and text mining using the comprehensive NLTK suite. This book cuts short the preamble and you dive right into the science of text processing with a practical hands-on approach. Get started off with learning tokenization of text. Get an overview of WordNet and how to use it. Learn the basics as well as advanced features of Stemming and Lemmatization. Discover various ways to replace words with simpler and more common (read: more searched) variants. Create your own corpora and learn to create custom corpus readers for JSON files as well as for data stored in MongoDB. Use and manipulate POS taggers. Transform and normalize parsed chunks to produce a canonical form without changing their meaning. Dig into feature extraction and text classification. Learn how to easily handle huge amounts of data without any loss in efficiency or speed. This book will teach you all that and beyond, in a hands-on learn-by-doing manner. Make yourself an expert in using the NLTK for Natural Language Processing with this handy companion. What you will learn from this book \* Learn Text categorization and Topic identification \* Learn Stemming and Lemmatization and how to go beyond the usual spell checker \* Replace negations with antonyms in your text \* Learn to tokenize words into lists of sentences and words, and gain an insight into WordNet \* Transform and manipulate chunks and trees \* Learn advanced features of corpus readers and create your own custom corpora \* Tag different parts of speech by creating, training, and using a part-of-speech tagger \* Improve accuracy by combining multiple part-of-speech taggers \* Learn how to do partial parsing to extract small chunks of text from a part-of-speech tagged sentence \* Produce an alternative canonical form without changing the meaning by normalizing parsed chunks \* Learn how search engines use Natural Language Processing to process text \* Make your site more discoverable by learning how to automatically replace words with more searched equivalents \* Parse dates, times, and HTML \* Train and manipulate different types of classifiers Approach The learn-by-doing approach of this book will enable you to dive right into the heart of text processing from the very first page. Each recipe is carefully designed to fulfill your appetite for Natural Language Processing. Packed with numerous illustrative examples and code samples, it will make the task of using the NLTK for Natural Language Processing easy and straightforward. Who this book is written for This book is for Python programmers who want to quickly get to grips with using the NLTK for Natural Language Processing. Familiarity with basic text processing concepts is required. Programmers experienced in the NLTK will also find it useful. Students of linguistics will find it invaluable.

### From reader reviews:

#### **Luther Ritenour:**

This Python Text Processing with NLTK 2.0 Cookbook are reliable for you who want to certainly be a successful person, why. The explanation of this Python Text Processing with NLTK 2.0 Cookbook can be among the great books you must have is usually giving you more than just simple reading food but feed an individual with information that maybe will shock your earlier knowledge. This book is actually handy, you can bring it just about everywhere and whenever your conditions throughout the e-book and printed types. Beside that this Python Text Processing with NLTK 2.0 Cookbook forcing you to have an enormous of experience such as rich vocabulary, giving you demo of critical thinking that we all know it useful in your day exercise. So , let's have it appreciate reading.

#### **Julie Tice:**

Reading can called mind hangout, why? Because while you are reading a book specially book entitled Python Text Processing with NLTK 2.0 Cookbook the mind will drift away trough every dimension, wandering in every single aspect that maybe unfamiliar for but surely might be your mind friends. Imaging every word written in a book then become one application form conclusion and explanation that will maybe you never get just before. The Python Text Processing with NLTK 2.0 Cookbook giving you another experience more than blown away your thoughts but also giving you useful facts for your better life within this era. So now let us explain to you the relaxing pattern is your body and mind will likely be pleased when you are finished looking at it, like winning a. Do you want to try this extraordinary spending spare time activity?

#### **Andrea Winburn:**

Python Text Processing with NLTK 2.0 Cookbook can be one of your nice books that are good idea. We all recommend that straight away because this guide has good vocabulary which could increase your knowledge in terminology, easy to understand, bit entertaining but delivering the information. The article author giving his/her effort to place every word into joy arrangement in writing Python Text Processing with NLTK 2.0 Cookbook but doesn't forget the main place, giving the reader the hottest in addition to based confirm resource details that maybe you can be one of it. This great information can drawn you into new stage of crucial contemplating.

#### **Martha Dixon:**

Don't be worry if you are afraid that this book can filled the space in your house, you may have it in e-book technique, more simple and reachable. This kind of Python Text Processing with NLTK 2.0 Cookbook can give you a lot of buddies because by you looking at this one book you have issue that they don't and make you more like an interesting person. This kind of book can be one of a step for you to get success. This publication offer you information that perhaps your friend doesn't recognize, by knowing more than various other make you to be great individuals. So , why hesitate? Let's have Python Text Processing with NLTK 2.0

Cookbook.
