Exploring The Crack In The Cosmic Egg: Split Minds and Meta-Realities Joseph Chilton Pearce

A brilliant analysis of the human condition and an elucidation of the mechanisms of enculturation which alienate us from our natural wholeness, starting from our hidden fears of death and working up to the ways in which revolt and protest actually support the system. This is not a book for those who value their comforting illusions: it is a must reading for those who realize the necessity of confronting the full horror of the prison we have made for ourselves as the necessary first step toward escape.
