Every parent wants to bring up a son or daughter who is responsible, confident and assertive, and who resembles them in every aspect of good behavior. Based on such premises and realities, are you then instilling in your child, a pragmatic, responsible, assertive, positive and open minded behavior?

This book is crafted based on the understanding that the future person in the child you are caring for now, depends on you as a parent. It takes a nosedive into what assertiveness in a child ought to project. It also explores manipulative factors that quite often, work against a parent's child upbringing efforts.

Assertiveness in a child equals responsibility and fearlessness - the ability to speak without fear. It is all about exuding confidence in action and speech while making the right decisions. It is being ready to learn from mistakes and listen attentively to words of wisdom. While society always plays a vital role in child upbringing and particularly with regard to ethical considerations, a parent's role is way beyond measure. It is the epitome of influence on a child.

With this handy book, "The assertive child: How to raise a child who will stand up for themselves," you will find practical solutions on the following key issues:

- Understanding the passive, often withdrawn and timid child. This book then lets you into a world of forces that work against your efforts of bringing up an assertive, confident child.
- How to identify passiveness in your young one based on some often overlooked manifestations.
- Society and gender biases right from childhood and how to lead the pack as a change maker in the life of your child
- . How parents can overcome the idealistic overprotective behavior in child upbringing.
- How to impart in your child the right sense of behavior based on 'The pushover and a nice child.'
