Over 2000 years ago, prophets were given visions of the details of our day. Our current technology is described many times in the pages of the Bible. We are currently standing at the threshold of the final cascade of events that will result in the conclusion of world history as we have known it and, according to some, the return of Jesus Christ to the earth. You do not have to be a religious person to see the connection between these crucial prophecies and things you are seeing take place and technology you are using every day.

We've been given a map to get us through the most difficult time the world has ever know, but we need to at least take a look at the map. The Journal is a novel, but the details in it are based in fact, not fantasy. If you value your life and your future, you owe it to yourself to read The Journal carefully and more than once.

Description of The Journal:

Prophecies straight from the pages of the Bible have been taking place on Earth for years, unrealized by most of the population.

Nuclear war in the Middle East

Russian invasion of Israel

Martyrdom of millions

Beginnings of a technology-based new world order.

Just as things seem to be getting back to what people accept as “normal”, a series of unearthly radio transmissions are received. The governments of the world try to keep them a secret, but then millions die simultaneously and with no explanation around the world. Earth is subdued and invaded by beings who call themselves "Guardians". Who are they, really? From where have they really come? They say they've come to save us, but is that the truth? Was that the rapture? Is this the tribulation?

Sam Owen, a highly decorated former special forces officer, and Bill Jacobs, a renowned international journalist, are thrown together in a quest to find Pastor Jason Brown and a hundred year old journal he possesses that the invaders are trying desperately to get their hands on. How can these events possibly fit with what the Bible predicts and what's going to happen next? The answers may very well be found in the old, brittle pages of The Journal.
