Crash Course in Basic Cataloging with RDA Heather Lea Moulaison, Raegan Wiechert Assistant Professor

Covering tools, terminology, and the FRBR-based RDA approach to description, this book explains the current principles of organization of information and basic cataloging practices for non-catalogers, enabling readers to understand elements of the cataloging process and interact with records in a basic manner.

• Provides an easy-to-follow, basic understanding of organization of library information and cataloging practice that explains how records are created and offers assistance in applying RDA

• Offers valuable insight for non-catalogers (and even non-librarians) into the practices and tools used in organization of information and cataloging by documenting the work that catalogers are now doing

• Explains the approaches to organizing different formats of materials in libraries and accounts for the effects of RDA on current cataloging practices
