What is a family? A family is considered a group of parents and children living together in a household. Another way of looking at family is all the descendants of a common ancestor. Family is the most important influence a person can have growing up. From their first moments of life, children depend on parents and family to protect them and provide for their needs. Parents and siblings form a child's first relationships. My book 50 Best Quotes on Family was intended to give you a new perspective on the term family. I love powerful quotes because they can influence your life and give you something to reflect on with just a few words of wisdom at a time. I hope you enjoy these quotes as much as I do.
