Care Plans: Health & Safety Form Kathleen Jezewska SRN Risk Assessment Form

All our patients had a Risk Assessment Form for common risks and for risks pertaining to their condition. The Form was filled in at our Nursing Home.

The form was filled in by the senior nurse on duty at the time of admission looking at the type of equipment that the patient required depending on their mobility and general condition.

Most patients used high backed chairs during the day. Half of our patients used wheelchairs at some time during the day. Few needed cot sides at night.

Most of our patients used a hoist when taking a bath.
