Solved Problems in Classical Mechanics: Analytical and Numerical Solutions with Comments

Owen de Lange, John Pierrus

Solved Problems in Classical Mechanics: Analytical and Numerical Solutions with Comments Owen de Lange, John Pierrus

Apart from an introductory chapter giving a brief summary of Newtonian and Lagrangian mechanics, this book consists entirely of questions and solutions on topics in classical mechanics that will be encountered in undergraduate and graduate courses. These include one-, two-, and three- dimensional motion; linear and nonlinear oscillations; energy, potentials, momentum, and angular momentum; spherically symmetric potentials; multi-particle systems; rigid bodies; translation and rotation of the reference frame; the relativity principle and some of its consequences. The solutions are followed by a set of comments intended to stimulate inductive reasoning and provide additional information of interest. Both analytical and numerical (computer) techniques are used obtain and analyze solutions. The computer calculations use Mathematica (version 7), and the relevant code is given in the text. It includes use of the interactive Manipulate function which enables one to observe simulated motion on a computer screen, and to study the effects of changing parameters.

The book will be useful to students and lecturers in undergraduate and graduate courses on classical mechanics, and students and lecturers in courses in computational physics.

From reader reviews:

Leroy Torres:

What do you ponder on book? It is just for students because they're still students or this for all people in the world, what the best subject for that? Only you can be answered for that issue above. Every person has several personality and hobby for every other. Don't to be forced someone or something that they don't need do that. You must know how great and also important the book Solved Problems in Classical Mechanics: Analytical and Numerical Solutions with Comments. All type of book would you see on many resources. You can look for the internet sources or other social media.

Stephanie Armstrong:

A lot of people always spent their particular free time to vacation as well as go to the outside with them family or their friend. Did you know? Many a lot of people spent they free time just watching TV, or even playing video games all day long. If you would like try to find a new activity here is look different you can read some sort of book. It is really fun for you personally. If you enjoy the book that you read you can spent the whole day to reading a guide. The book Solved Problems in Classical Mechanics: Analytical and Numerical Solutions with Comments it is quite good to read. There are a lot of those who recommended this book. These folks were enjoying reading this book. If you did not have enough space to bring this book you can buy the particular e-book. You can m0ore quickly to read this book out of your smart phone. The price is not too expensive but this book provides high quality.

Guadalupe Marshall:

Beside that Solved Problems in Classical Mechanics: Analytical and Numerical Solutions with Comments in your phone, it could give you a way to get more close to the new knowledge or info. The information and the knowledge you can got here is fresh from oven so don't possibly be worry if you feel like an older people live in narrow town. It is good thing to have Solved Problems in Classical Mechanics: Analytical and Numerical Solutions with Comments because this book offers for your requirements readable information. Do you sometimes have book but you rarely get what it's interesting features of. Oh come on, that will not happen if you have this in your hand. The Enjoyable set up here cannot be questionable, similar to treasuring beautiful island. Use you still want to miss the item? Find this book along with read it from currently!

Robert Baxter:

What is your hobby? Have you heard in which question when you got students? We believe that that query was given by teacher for their students. Many kinds of hobby, Everyone has different hobby. Therefore you know that little person including reading or as examining become their hobby. You have to know that reading is very important as well as book as to be the matter. Book is important thing to provide you knowledge, except your personal teacher or lecturer. You get good news or update with regards to something by book. Different categories of books that can you choose to use be your object. One of them is this Solved
