Supernatural Love: Poems 1976-1992 Gjertrud Schnackenberg

The poet Gjertrud Schnackenberg, whom William Logan once called "the most talented American poet under the age of forty," published her first book of poems in 1982. She has since become one of our most respected authors of verse.

Schnackenberg's first three books, collected in *Supernatural Love*, show the thrilling evolution of a unique voice in today's letters. From an early mastery in which precision and heartbreak are inseparable, her poetry accelerates book by book through the searching, dense, and metaphysical imagery--as well as the cascading syntax--which have become her signature. Whether we are witnessing her classic portrait of Darwin in his last year or discovering the vertiginous brilliance of her elegy for the Byzantine monuments of Ravenna, we find in Schnackenberg gemlike poems offered as visionary documents, unmistakable in their glittering range and passion--and never the same twice.
